1. I learned how to read and write to a file in c and create and use a struct.
2. Nfl ended up paying $2931 more debt than fl.
3. Nfl was 14 more years in debt compared to fl.
4. Fl has $1397359 more wealth than nfl.
5. I think fl using a mutual fund was the most beneficial decision made, as the difference between .07 and .01 interest created a large gap between fl's and nfl's savings account at the end of the simulation.
6. Fl would likely not use a loan to buy a car, instead of going out more to eat he/she would cook at home, and the financially literate person would likely in general be more frugal and make good use of deals or discounts.

fl vs nfl
